HOLIDAYS

Adventure Activities

Adventure Activities have evolved in Goa over the past decade. Led by dynamic entrepreneurs an eco-system of exceptionally fine companies has mushroomed here offering an array of exhilarating experiences. From Kayaking in the oceans and back waters to cycling through the hinterlands, trekking the ghats or unique ocean treks. You have options to be part of a group or we could customize one specifically for your guest's requirement. All the activities are managed professionally by teams who have experience and are specialists.

Goa and its topography are ideal for many mesmerising activities. Sandwiched between the biodiverse and densely forested Western Ghats on one side and the Oceans on the other with a network of rivers crisscrossing the small state. It is time to explore the other side of Goa beyond the beaches and the Casinos, a fresh new experience of Goa.

Partner with us in developing unique itineraries revolving around adventure and activities. We could plug in a short half day activity of choice for your next booking to Goa or design a customized multiday itinerary for adventure enthusiasts. Do get in touch with us for your requirement and we get back to you with a tailor-made proposal.
